

ThinkYoung Digital Coalition

[ThinkYoung](#) is the first think tank focusing on young people. Our aim is to empower youth across the globe and make the world a better place for young people, by involving them in decision making processes and by providing decision makers with high-quality research on key issues affecting young people. We conduct studies and surveys, make documentary movies, write policy proposals and develop educational programmes.

We are now starting to build a **Digital Coalition**, which will run through 2021. Our aim is to join forces and develop ideas, projects and policy recommendations on **digital inclusion, access to digital education, gender equality in STEM and sustainability in technologies**. We want to offer young people the opportunity to take a leading role on these crucial issues, and to facilitate collaboration among organisations and initiatives working on the digital divide in order **to maximise the resources for a greater impact and a more sustainable digital inclusive Europe**.

The Coalition will be formed by organisations and individuals working to address inequality, poverty, and digital access across Europe. It will be a voice for digital inclusion and equity in the region, a space to share information and data on the issues revolving around digitalisation ideas and practices, and to make our understanding of young generations wider. Joining efforts to promote our projects on social media and other channels will result in advancing the ideas we fight for while reaching more potential people.

Who can participate and further information:

- European young people from 18 to 35 years old
- Anyone interested in digitalisation (including healthcare, gender equality, sustainability and other related topics)
- The participation is based on an informal agreement and no costs are involved
- Possibility to join as an individual based on your personal interest on the topic
- Possibility to join as an individual representing a digital-focused organisation
- More than one individual from the same organisation can participate

What could you gain

- Be part of the Thinkathon project, which aims to create a platform for debate where young participants create policy recommendations to shape more inclusive digital societies
- Informal collaboration and visibility: we can share your events and projects in our social media channels or add your logo to our website
- Exchange of opportunities
- Access to our educational materials and webinars
- Interaction with high-caliber external stakeholders
- Knowledge of the European institutions, including contacts amongst Members of the European Parliament and the European Commission

Contact

To register your interest please click [here](#) and fill in the form by Friday, 19th of March 2021.

Please do not hesitate to contact us at silvia@thinkyoung.eu if you have any questions.
